President Falconer
Toronto Ont.

Dear Sir:- My Son, Irving B. Roger, a Toronto Medical Student,- who has been in France two years is now invalided in England and unable to return to France until Spring is to have Canadian leave for the winter and is anxious to continue his medical course. Yesterday I had a Cable requesting, among other things, a University recommend-ation, I am sending him, for use, a certificate that- he is a medical student- and if granted leave I will agree

Roger, I

P

to have him attend University and carry out such instructions as the Government or Military Authorities may impose, as best we can, with the understanding that he returns to Service in the Spring or upon Call. I am however uncertain if this is what is required and am writing to ask you to give such assistance or advice as you think best;

Yours Sincerely

J. P. Roger

P.S. We were living in Asheville N.C. when Irving enlisted.

J. P. Roger, Esq.,

Kirkton, Ont.

Dear Mr. Roger:

I received your letter yesterday asking that we should use our influence to secure the return of your son, Irving P. Roger, in order that he may resume his medical studies in the University. I am glad to be able to say that owing to change of regulations we think we shall be able to have those who have had two years of training in the Faculty of Medicine returned to complete their course, and we are making application for your son among others. I hope therefore that it will be effective before very long.

I am,

Yours sincerely,

President.
